SUMMARY

Full-Stack Developer that loves to see projects built from the ground up. Favorite pastimes are discovering new technologies and working to build knowledge and problem-solving skills. Recently earned a certificate in Full Stack Development from the University of Central Florida with skills developed in JavaScript, CSS, React.js, and responsive web design. Enjoys building full-stack web applications that are user-friendly and intuitive. Excited to use knowledge and expertise to add value to a diverse team to maximize user-centered experiences on the web.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, JQuery, Express, Graphql
Applications: NodeJS, Heroku
Frameworks: ReactJS, Handlebars.js
Databases: MySql, MongoDB

PROJECTS

DnD Collective Backend Demonstration | Github repository https://bit.ly/3irCOJK
- A separate D&D character generator app using React and GraphQL
- To get data from an open source database and combine with a MongoDB database to create an API. Query the data with an Apollo server and create login and signup functionality for the page.
- Javascript, React, HTML, CSS, MongoDB, Mongoose, GraphQL

DnD Character Generator | https://bit.ly/3inMNzE | Deployed Link https://bit.ly/36fjq00
- To have a collective place for users to log in and create any characters for their DnD Campaign.
- Backend, worked with getting the data into the Database and then displaying it to the page.
- JavaScript, HTML, CSS, Bootstrap, Handlebars.js, Express.js, and MySQL

Gardenify | Github repository https://bit.ly/3JxQuP9 | Deployed Link https://bit.ly/3udlPjW
- A small project created to be able to search different plants and see how to grow searched plants.
- To work on getting plant API data and help get the data to come up when plant was searched
- Javascript HTML and CSS

EDUCATION

Full Stack Web Development Certificate*: University of Central Florida, Orlando, FL

WORK EXPERIENCE

Team Member   2021 – 2022
Chik-Fil-A   San Angelo, TX
Provided friendly guest experiences as a cashier in a fast paced environment.
Key Accomplishments:
- Stepped into a leader role in fast-paced time sensitive moments.
- Built my verbal communication skills to communicate problems more effectively.
- Built my problem solving skills working the cash register in the busiest of times.
